Craig, Harmon Bushnell 1926-2003

Harmon Bushnell Craig Papers, 1923-2005

Physical Description: 48mss; slides; films

Description: The accession includes field notebooks and computation books, which includes notes taken on expeditions, and computation books containing laboratory data. This material includes notes taken on Helios Expedition (1987) and field notebooks containing gas sample data from Lassen Park, Steamboat Springs and other locations. There are also notes on trips including Greece, 1974 and Pisa. The accession includes data on noble gases, helium, argon, krypton. The accession contains data on carbon dioxide. There are notes consisting mainly of material relevant to ice cores, and files on Trent River. The accession includes Amber data. An additional 25 mss boxes were added to this collection of 23mss on March 11, 2010 from the estate.

Pascua Expedition (1983); Scientific Expeditions; Geochemistry ; Oceanography-- History
