Tillie Genter Papers, 1901-1955

Bulk Dates: 1919-1944

Physical Description: 2 mss; approx. 250 photographs

Description: The accession includes approximately 250 photographic prints and 170 photographic negatives of images of SIO or associated with SIO during the period 1901-1944. Miss Genter collected these images while she served as secretary to the Director of SIO from Oct. 1, 1919 to 1944. Collection includes portraits of Tillie Genter, Harald Ulrik Sverdrup, Thomas Wayland Vaughan, Erik Gustaf Moberg, Elodwent Lloyd, Bjorn Helland-Hansen, and George Francis McEwen. There are images of SIO vessels including the ELSIE, LOMA, ALEXANDER AGASSIZ, SCRIPPS, and E.W. SCRIPPS. The accession includes 9 images documenting Dr. Ritter's participation in the 1904 Albatross Expedition. The collection also includes some printed material and manuscript material including a copy of Gill's specifications for the George H. Scripps Memorial Marine Laboratory c1909, a map of the proposed land acquisition in La Jolla for a Scripps campus c1906, a parody of the Mr. Dooley articles, describing persons at the Institution in 1917. This piece may have been written by W.A. Allen. The accession also includes a copy of a bid submitted to E.W. Scripps for the construction of a pier at the Scripps Institution in 1912. Added to the collection is a scroll given to Tillie Genter on her retirement and was signed by many Scripps personnel: Carl Eckart, Francis P. Shepard, Ellen and Roger Revelle, Miriam and Denis Fox, Carl L. Hubbs and Laura C. Hubbs. Scroll dated May, 1948.
