SCRIPPS INSTITUTION OF OCEANOGRAPHY ARCHIVES

Goldberg, Edward D.

Edward Goldberg Papers, 1939 -1996

Physical Description: 16 mss

Description: Accession consists of the papers of Edward Davidow Goldberg, oceanographer and marine chemist at Scripps Institution of Oceanography. The accession includes Goldberg's student notebooks for courses at the University of Chicago, 1946-1947, an incomplete series of manuscripts of scientific papers, subject files, and other material. The accession includes some documentation of the muscle watch program, files including photographs documenting scientific conferences, teaching files including curriculum, lectures and other material documenting SIO 250, Coastal Marine Chemistry in 1988. There are files documenting Goldberg's work on San Diego Bay sewage issues dated 1996-2000. There are files documenting some committees on which Goldberg served, and files documenting some of the honors he received, including the Tyler Prize.
