Fritz Ohre Slides, 1967-1973

Physical Description: Approximately 900 color Agfa and Kodak slides (and 35mm)

Description

The accession consists of color slides taken by Frithjof Ohre documenting several Scripps Institution of Oceanography expeditions in which he participated 1967 and 1973. The images include documentation of Marine Vertebrates Cruises MV68-I and MV69-IV to Baja California. The images include images of oceanographic cruises aboard Scripps vessels including R/V Alexander Agassiz, R/V Ellen B. Scripps, and R/V Melville. The collection includes images documenting expedition participants, including Carl L. Hubbs, work at sea, marine vertebrates and fish. Some carousels contained indexes identifying specific images, and some carousels included expedition reports and other description information.

Acquired July 21, 2003

This collection was acquired by SIO Deputy Director Tom Collins at the Pine Valley dump, where the collection had been discarded. Scripps Archives received the collection from Collins on July 21, 2003.
