Preisendorfer, Rudolph William 1927-1986

Rudolph W. Preisendorfer Lectures, 1954 - 1970

PHYSICAL DESCRIPTION: 2 mss.

DESCRIPTION: Five sets of lecture notes taken by Rudolph W. Preisendorfer while he was a researcher at the Visibility Laboratory and lecturer in the Department of Oceanography during 1954-1965, and at Naval Postgraduate School in 1970. Subjects include transient radiant flux problem; sets, relations and number systems; mathematical logic; harmonic analyses and stochastic processes; and calculus.

Rudolph W. Preisendorfer Lectures, 1954 – 1970

Scripps Institution of Oceanography Archives

Accession No. 83-59

Volume II, February 1954, A Preliminary Investigation of the Transient Radiant Flux Problem

Fall 1961, Lectures on Sets, Relations and Number Systems

Spring 1962, Lectures on Mathematical Logic

Spring 1965, Lectures on Harmonic Analyses and Stochastic Processes (Oceanography 220)

Fall 1970, Calculus Lectures [Naval Postgraduate School, Monterey, California]
